

# HOW TO GET THE **MOST** OUT OF YOUR

# **BOOSTBOX**<sup>™</sup>**H2**

THE **BOOSTBOX**<sup>™</sup>**H2** USES PATENTED TECHNOLOGY TO HELP IMPROVE THE EFFICIENCY OF YOUR DIESEL ENGINE.

TO REALIZE THE MOST BENEFIT FROM THE SYSTEM, THERE'S ONLY TWO SIMPLE THINGS TO DO:

1. ALWAYS USE ONLY 5PPM OR LOWER DISTILLED WATER. LESS PURE WATER CAN DAMAGE THE SYSTEM – USE THE TESTER PROVIDED!
2. UTILIZE THE IMPROVEMENT IN TORQUE BY MOSTLY USING THE **TOP HALF OF THE PEDAL RANGE!** WITH THE **BOOSTBOX**<sup>™</sup>**H2**, YOU WILL SEE THE SAME PERFORMANCE BY FEATHERING THE TOP HALF OF THE THROTTLE AS YOU WOULD HAVE PREVIOUSLY ACHIEVED BY PUTTING YOUR “FOOT TO THE FLOOR”! IN FACT, A HEAVY FOOT ON THE THROTTLE WILL ACTUALLY CANCEL THE IMPROVEMENTS OTHERWISE SEEN WITH THE SYSTEM!
