

## Pre-Installation Profile & Checklist

*Please complete one form for each tractor being installed*

Company Name \_\_\_\_\_

Company Address: \_\_\_\_\_

Installation Address: \_\_\_\_\_

Contact \_\_\_\_\_ Title \_\_\_\_\_

Phone Number \_\_\_\_\_ E-mail Address \_\_\_\_\_

Engine Make/ Size/Year \_\_\_\_\_

Tractor Make/Year \_\_\_\_\_

VIN (Vehicle Identification Number) \_\_\_\_\_

Current Odometer Reading \_\_\_\_\_

Has Engine Been Re-Built? Yes \_\_\_\_\_ Approximate Mileage \_\_\_\_\_

Current MPG \_\_\_\_\_ Average miles driven per year \_\_\_\_\_

How are current MPG calculated? \_\_\_\_\_

Emission label: Engine family & year of certification \_\_\_\_\_

Emission control system(s) external to engine (please check):

DOC \_\_\_\_\_ DPF \_\_\_\_\_ SCR \_\_\_\_\_ Lean NOx trap \_\_\_\_\_

Other \_\_\_\_\_

12v / 24v (circle) Alternator Amp Rating \_\_\_\_\_ Present Max Amp Usage \_\_\_\_\_

Spare Tire Carrier or Other Items Mounted Behind Cab: Yes \_\_\_\_\_ No \_\_\_\_\_

Sleeper Cab Configuration: Yes \_\_\_\_\_ No \_\_\_\_\_

Describe any Engine Performance Modifications: \_\_\_\_\_

\_\_\_\_\_

**Please photograph the two sides of the tractor, and the backside of the cab & deck area and any other potential installation site (including inside the cab). You may email the photos and the completed form(s) to: [ajeffer@BoostBoxH2.com](mailto:ajeffer@BoostBoxH2.com)**

## Recommended Procedures Prior to Installation

1. Assure all maintenance is up to date and maintenance records are available for review.
2. Perform an oil change.
3. Change Air and Fuel filters.
4. Review MPG calculations and base line with the BoostBox H2 team.
5. Take oil samples during change and perform compliance test
6. Perform 5 gas (CO, CO<sub>2</sub>, NO, NO<sub>2</sub> and opacity) emission testing
7. Take pictures and review installation site with BoostBox H2 - note, unit must be accessible for the driver to refill with Distilled water
